For learners with little or no previous experience full novice training courses are most suitable. However, for those who have experience in the category, they are able to complete an Experienced Worker Test.

It is recommended that learners have at least 2 years' experience to complete the Experienced Worker Test.

---

### Assessment

- NPORS Theory assessment made up of open questions and multiple-choice questions
  - NPORS Practical assessment
- 

### Certification

Those who successfully complete the training and assessment will receive a Traditional NPORS Trained Operator card valid for 5 years.

For those who require the CSCS NPORS card, the operator must have passed the relevant Health, Safety and Environment test within the last 2 years prior to the card application.

**NPORS cards can be requested with an individual expiry on each category, or one expiry date for all categories held.**
